

Present and Future Zooarchaeological Research in China and Israel

A Workshop Affiliated with the International Conference “Animals and Humans in Asia” of the Asian Sphere Inter-University Graduate Program

University of Haifa, 26 February 2017

Early registration required

Program

9:00-11:00: A tour of the Mount Carmel Caves
(for the registered participants) , Guided by Reuven Yeshurun, University of Haifa

Transfer to the University of Haifa, coffee break

12:00: Guy Bar Oz, University of Haifa
The (almost) first 100 years of zooarchaeological research in Israel

12:15: Rivka Rabinovich, Hebrew University of Jerusalem
Elephants in time and space – facts and fiction

12:30: Daniella E. Bar-Yosef Mayer, Tel Aviv University
Shell beads and shellfish at Upper Palaeolithic Manot Cave, Israel

12:45: Nimrod Marom, University of Haifa:
Which data? Questions of resolution in planning long-term, multiple-assemblage archaeozoological Research

13:00: Zhipeng Li, Institute of Archaeology, Chinese Academy of Social Sciences

The origin of domestic animals in prehistoric China: A review of the related zooarchaeological research in China

13:15-14:15: Lunch break

14:15: Gila Kahila Bar-Gal, Hebrew University of Jerusalem
Genomic ancient DNA reveal new story on wildlife evolution

14:45: Meirav Meiri, Tel Aviv University
Domestic livestock and human mobility in the southern Levant- an ancient DNA point of view

15:00: Xin Zhao, Institute of Archaeology, Chinese Academy of Social Sciences
Ancient DNA studies in zooarchaeology in China

15:30: Round table discussion: Animal exploitation patterns in east and west Asia; possible venues of collaboration

16:00-17:00: A tour at the Hai-Bar Nature Reserve
(for the registered participants only)
